EDUCATION

Loyola Marymount University – B.S. Computer Science

Los Angeles, CA August 2020 - May 2024

PROJECTS

MetroTune – [link](#): Designed and developed a responsive web app for musicians using Figma for UI/UX design and implemented the frontend using HTML5, CSS3, and vanilla JavaScript. Integrated Web Audio

BeerGenie: Drink Counter – Developed a mobile app that lets users log drinks, track consumption patterns, and set personalized limits to promote responsible drinking habits. Implemented features for habit tracking, data visualization, social interaction, and user notifications to encourage awareness and healthy behavior.

Estate Helper: Built a full-stack web application from scratch, implementing back-end logic, front-end interfaces, and Stripe payment processing; collaborated on automated document generation and deployment

Data Analysis Labs (R): Cleaned, analyzed, and visualized datasets using R, ggplot2, and dplyr to identify trends and generate actionable insights

EXPERIENCE

Alleviate Tax — *Technology Specialist*

Irvine, CA May 2025 - Present

- Managed helpdesk tickets, emails, and calls to diagnose, resolve, and document technical issues across the organization
- Authored internal technical documentation and training manuals to support onboarding and repeatable IT processes
- Built automation scripts to streamline Logics user onboarding, welcome emails, IP restrictions, and admin role configuration
- Developed automated workflows for DNC submissions and incident documentation screenshots, reducing manual effort
- Designed, built, and maintained multiple internal and external websites, contributing to both front-end and back-end development, including WordPress-based systems and payment pages
- Performed computer setup, reformatting, hardware cleanouts, desk moves, and cable management during office operations and relocation

Aicade — *AI Game Creator*

Remote January 2025 - March 2025

Melrose Sound Studio – Audio Engineer

Los Angeles, CA May 2024 - March 2025

LMU Recording Arts Office — Assistant Engineer

Playa Del Rey, CA August 2021 - May 2024

(949) 429-9173

SKILLS

Languages:

JavaScript, HTML, CSS, Java, Python, R, C#, Typescript, PowerShell

Frameworks & Libraries:

React, Remix, Node.js, Web Audio API, ggplot2, dplyr, Pandas

Tools & Technologies:

Git/GitHub, Figma, Chrome DevTools, REST APIs, GraphQL, AJAX, VS Code, XCode, Sublime

Data & Analysis:

Data Visualization, Statistical Analysis, API Integration

Design & UX:

UI/UX Design, Wireframing, Responsive Web Design, Interaction Design

AWARDS

National Society of Collegiate Scholars – LMU Chapter

2022 - 2024

Xavier Scholarship Recipient

2020 - 2024

LMU Arrupe Scholarship Recipient

2020 - 2024

Courses

Web App Development
Data Structures | Game Design
Interaction Design | AI
Algorithms and Analysis
Fundamentals of Music | Guitar
Operating Systems | Statistics
Logic and Computer Design
Linear Algebra | Calculus I & II
Discrete Math | Economics
Cybersecurity | Programming
Computer Systems Organization
